NT- suggested that there should be letters sent to the National Trust from BHA, BPC and B3CT supporting the work to be done on the Carnser car park and the quayside wall to help stop the siltation.

JS- Had a meeting with Simon Read regarding the Cley Channel project. they now need MMO licensing and they are looking to work with EXO.

DG- Consider the bigger picture of commerce and the financial input from tourism and what we could lose if the water in the Quay disappeared, i.e.- employment, businesses, holidaymakers house prices etc.

It was agreed that Don would go back to Exo and ask about a number of questions regarding the second survey, when should the next one be done 2019,20,21 do we need a velocity flow survey at the same time, and costings.

Also, to ask about the removing of perpendicular groynes from the plan as they would not be allowed by the National Trust.
